

STEP 2**TIP SHEET**

Effective on all emulsions, films and stencils

STRIP•e•doo®

Emulsion Remover

Franmar's **STRIP•e•doo® Emulsion Remover** has revolutionized the once unpleasant process of screen reclaiming with its natural and biodegradable formula. It is specifically designed to penetrate and dissolve all types of emulsion and capillary film without weakening the mesh. It contains a built-in degreaser and changes color when no longer active.

Directions:

1. Wet screen and pour or spray a small amount onto front side of screen.
2. Scrub briefly with a dedicated Biggee™ scrub pad.
3. Repeat on back side of screen.
4. Let product work for 30 seconds or more and scrub both sides again.
DO NOT ALLOW PRODUCT TO DRY.
5. Rinse both sides of screen clean with pressured water.

Usage Tips:

- STRIP•e•doo shows you when it's no longer active by changing color from white to brown.
- Use a spray bottle for better distribution of product.
- Additional degreasing is needed when using high mesh counts or halftones.
- Store in a cool, dry place away from direct sunlight.

MORE INFORMATION:

Precautions: Dispose of waste according to local regulations. Avoid eye contact. If product contacts eye, rinse thoroughly with water. Call a physician if irritation persists. If swallowed do not induce vomiting. Call a physician. Nitrile or neoprene gloves are recommended for sensitive skin.
