

TIP SHEET

Removes locked emulsions

UN-Lok Screen Unlocker

Franmar's **UN-Lok Screen Unlocker** is a revolutionary product that works on all types of locked emulsion, including capillary film, usually within 30 minutes or less. This gel formula is easy to use and stays wet for up to 24 hours, allowing flexibility to clean at your own convenience.

Directions:

1. Liberally apply to locked emulsion and rest of the screen.
2. Let product sit for 10-30 minutes. More time may be needed for heavily locked areas.
3. Scrub well with a dedicated Biggee™ scrub pad.
4. Wash with power washer or water hose with pressure nozzle.
5. Repeat if needed for trouble spots. Wash thoroughly.

Usage Tips:

- UN-Lok can be left on screens overnight.
- Check for loosened emulsion with fingernail.
- If desired, a degreaser can be used as a final cleaning step.

MORE INFORMATION:

Precautions: Dispose of waste according to local regulations. Avoid eye contact. If product contacts eye, rinse thoroughly with water. Call a physician if irritation persists. If swallowed do not induce vomiting. Call a physician. Nitrile or neoprene gloves are recommended for sensitive skin.
